

R Series

R64K Code-Compatible Acoustic Transmitters

MM-R-16-50 MM-R-16-25 MM-R-11-28

BioSonics Telemetry is pleased to add R Series of acoustic transmitters. R Series tags are based on R64K coding and are fully compatible with the BioSonics Telemetry WHS2000 Series Receivers. R Series

Transmitters were designed with OEM compatibility and can be deployed, either for exclusive use in projects, or for use in projects that involve receivers and transmitters supplied by other manufacturers.

Key Features

- R64K Code-Compatible
- Fully Compatible with the BioSonics Telemetry WHS2000 Receiver
- Low acoustic frequency of R Series transmitters makes them ideal for marine applications

R Series

Specifications

Tag Model	Physical Specifications		Calculated Life (days)
	Diameter x Length (mm)	Weight (g)	60 second period
MM-R-8-SO	8.5 x 38	5.5	202
MM-R-11-SO	11 x 38	6.6	202
MM-R-11-28	12 x 56	10	1011
MM-R-11-45	12 x 72	14	1573
MM-R-16-25	16 x 57	26	2043
MM-R-16-33	16 x 64	29	2785
MM-R-16-50	16 x 80	35	4457
